

POLAR PLUNGE

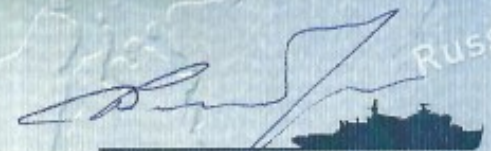

CERTIFICATE

Let it be solemnly acknowledged and publicly announced that
the Brave Polar Explorer,

Steven Markoff

valiantly and showing dauntless courage, took an icy plunge into
the frigid waters of the Arctic Ocean while visiting the Geographic
North Pole aboard the nuclear-powered icebreaker
«50 Let Pobedy», and therefore has become an official member
in good standing of the exclusive Polar Plunge Club.

Expedition Leader

Captain «50 Let Pobedy»
